Be Confidency.

CURRICULUM VITAE

ILIAS MIAH.

Product Designer and Founder, Be Confidency

I design SaaS and AI products and build the sites that sell them, so what you approve is what goes live.

SUMMARY.

Product designer and founder of Be Confidency. I design SaaS and AI products end to end and build the front end myself, so what a client approves is what ships. My focus is AI products for operations teams, where an agent drafts the work and a person stays in control. Publishing work since 2021.

SELECTED WORK.

FleetFlow AI · AI agent logistics CRM
STUDIO PRODUCT, DESIGNED AND BUILT
249 screens from desktop to phone, Arabic included. 86 screens and states built as a working front end. 6 AI agents, each with its own guardrails.

Transom · Clinic operations platform
STUDIO PRODUCT
49 screens across 7 journeys, from booking to clinic operations. AI drafts show the source of every line.

Lamano · AI assistant app for small businesses
CLIENT IN AUSTRIA
21 mobile screens and a design system of 9 component sets.

Mandate · Agentic vendor risk platform
STUDIO PRODUCT
115 screens across 13 flows, 405 component variants and 155 design variables.

ShogunAI · Launch site for an AI assistant
CLIENT IN JAPAN, DESIGNED AND BUILT
14 sections designed, storyboarded and shipped as a fast static page.

Clubhouse · Football club management software
CLIENT IN THE UK
Ticketing, club shop, matchday takings and player data in one system.

EXPERIENCE.

Jun 2025 to now · Remote
Founder and Lead Designer at Be Confidency
- Lead every project from the first flow to the shipped front end, for SaaS and AI teams in the US, the UK, Europe and Japan.
- 30 case studies published across logistics, healthcare, finance, construction, property and sport.
- Rated 5.0 by 31 clients on Dribbble. One client came back for six projects.

Jun 2026 · London, remote
Product Designer, contract at Honk Labs
- Brand identity and website redesign for a transformation consultancy.

May to Aug 2025 · United States, remote
Director of Design and Development at ENLOGIQ
- Designed and built several custom websites and supported the internal team.

Apr to Aug 2025 · Singapore, remote
Product Designer at Syntra Lab, then Kovra
- Owned UI and UX across web and mobile products, from flows to final screens.

2024 to 2025 · Clients in the UK, Cyprus and Italy
Freelance Product Designer
- Landing pages, web apps and redesigns, including Dispatch Buddy and HJS Insurance.
